Being the close of a delightful and prosperous year, we wish you a Happy New Year, and may you have many, many more. We have importuned you many times for your friendship and trade. We thank you for what you have given us and hope to receive your future favors. We shall continue to cater to your smallest needs in the drug and sundry line, guaranteeing the best of quality, treatment and satisfaction.

We have been thinking it over and have come to the conclusion that the best gift that has come our way during the past year has been the good will the people have shown our store. That has been a continual present, one that we appreciate more than we can possibly tell. Every day we have some new cause for fresh appreciation.

One of the greatest surprises we have had has been the enormous growth of our prescription work. However if the truth were known-and our customers probably know it better than we do-our store gives you a superior service in prescription work, or else how can we account for the continued growth of our prescription department, both among physicians and patients? This is the only conclusion we can draw when we see how onr prescription department has increased during the
